

## Having my hair shortened.

My hair grows a little every day.

If I didn't have it shortened, it would grow over my eyes, making it hard to see things. It would also make my head really hot!

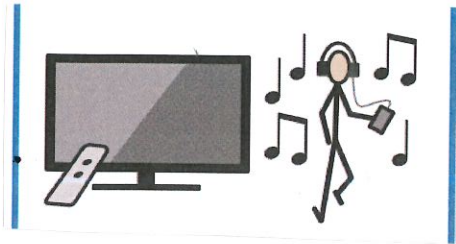

I stay at home to have my hair shortened. I sit in a chair and can look in a mirror to see how it's done.

My mum uses clippers to slowly shorten my hair. They make a buzz noise when they gently touch me.

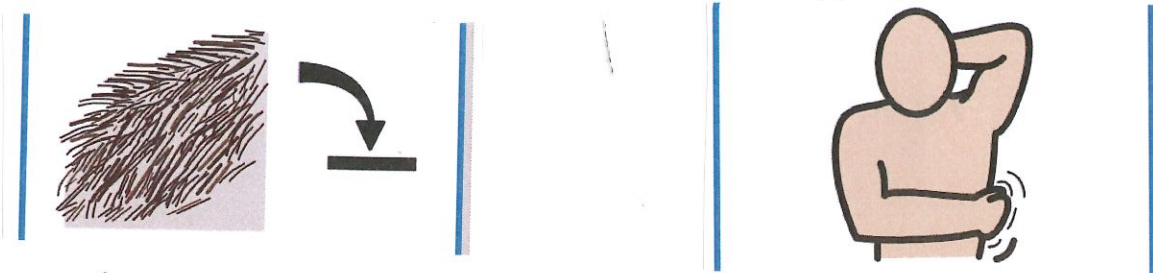

I can have the TV on or listen to music if I don't want to listen to the noise.

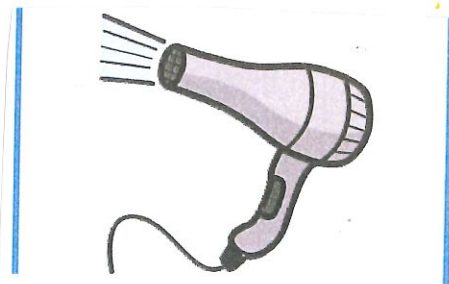

I can also have a toy or a teddy in my hands to help keep me happy.

When the clippers touch my hair, the hair will fall to the floor. Some will fall on my shoulders and might feel a bit tickly.

My mum will use the hairdryer to help blow this hair off me. She will let me know when this is going to happen.

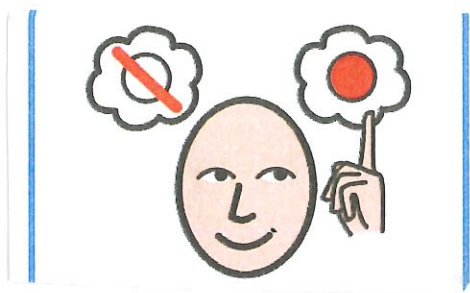

When all my hair has been shortened, I can have a shower to stop the tickles from the hair I don't need anymore.

Next, I can choose something I like to do. I will choose
