Locking COOKER VALVE

When you care for a person with a condition such as Dementia(s), cognitive impairment or Autism,

it can often help to have additional measures in place to provide that extra peace of mind.

This simple safety device will help individuals to retain their independence, and provide reassurance to family, friends and carers; as the caregiver can easily control when gas can and cannot be used safely once fitted. For example, this could help avoid leaving the gas cooker/hob switched on unignited or help prevent a plastic kettle being placed on an ignited ring where the person living with Dementia(s) may have remembered how to make a cup of tea but forgotten that these days they have an electric kettle to do this.

Cadent are proud to offer their locking cooker valve fitting service to customers. The service is completely free of charge and will be carried out by one of their own qualified gas engineers.

They provide this service regardless of your gas supplier. You don't need to change energy supplier or inform your supplier of the device. Simply head over to their webpage: <https://cadentgas.com/help-advice/supporting-our-customers/locking-cooker-valves> or call 0800 389 8000 for more information. Once fitted, they will need a carer/person(s) responsible to keep the key safe, meaning they can turn the locking cooker valve on and off to prevent future risk.

Halton Carers Centre Carer Break Funding

In recent months, we've observed an increase in enquiries from carers who have applied for our carer break funding. We understand the anticipation and eagerness for updates on your applications, however, we want to reassure all applicants that while we aim to process applications as swiftly as possible, it can take up to 8 weeks from submission to a decision being made on your award. Your patience during this period is greatly appreciated. We kindly request that carers allow at least 8 weeks before contacting us to enquire about the status of your applications.

Arthritis Action Groups are a place for people living with, or caring for people living with arthritis to get together and share tips, tricks and experiences about their condition.

Their Groups are held online over zoom and facilitated by a member of their team to keep things on track, and make sure that everyone has the best experience possible.

Each month they cover a different topic so you will have lots of time slots and dates to pick from, ensuring you don't miss out on what is being discussed. And if the topics aren't for you, they offer social online Coffee Mornings and Afternoon Teas where you can chat and get to know each other, without a set theme.

They also run a monthly Young Adult Group for anyone aged 18 to 40.

For more information please head over to their website here:

I'm Steve Roberts, I work for TRANSFORM LIVES COMPANY and I am the Community Engagement Coordinator for HALTON.

I currently work in both Widnes and Runcorn, supporting people who find themselves - for whatever reason - some distance away from the workplace. In line with our mission and values, I provide support and guidance to people who wish to move their lives forward, towards the workplace or other positive outcomes, such as voluntary work, training, or further education.

With compassion and understanding, I take an informal approach at the outset. Either in a one-to-one setting or small groups, in order to build that all important trust.

If you would like to know more please give me a call 07342486385 or email me at steve@transform-lives.org or visit our website www.transform-lives.org

Hospital Shuttle Bus

Hospital shuttle bus service timetable

There is a free shuttle bus service between Warrington Hospital and Halton General Hospital. Whilst at the Halton General campus, the shuttle bus will call at both the Nightingale Building and the Captain Sir Tom Moore Building.

The bus runs seven days a week.

Please note, at the weekends and bank holidays, whilst operating at the Nightingale Building (Halton General campus), the shuttle bus runs Monday to Friday, from Entrance 1, but at weekends and bank holidays it will operate from Entrance 2, which is situated at the rear of The Nightingale Building near to Runcorn Urgent Treatment Centre.

A couple of minutes after departing from either bus stop at The Nightingale Building, it then makes a stop at the Captain Sir Tom Moore Building (apart from the 6.35am departure).

We would recommend you being at the Captain Sir Tom Moore Building the same time as the departure time for the Nightingale Building entrance, as it will only take the bus a minute or two to arrive there, depending on the number of people alighting and boarding.
